## MARCHING CLAN

### UNIFORM INSTRUCTIONS

- Uniforms CANNOT be washed. They must be dry cleaned. Use Garden State Cleaners at Lincoln and Landis. They know how to handle the special materials.
- Raincoats can be washed. There are instructions on the tag inside the raincoat.
- You should wear light shorts under the bottoms of the uniform. Thermals and sweatpants can be worn underneath during colder months. You CANNOT wear heavy shorts or pants of any kind under the uniform.
- The band t-shirt must be worn under the uniform top. As it gets colder, you can wear thermals or a sweatshirt under the jacket. You CANNOT wear a hoodie.
- Musicians must wear LONG black socks with the uniform. Plain black – no designs – no other colors mixed in. They should reach at least 5 inches above your ankles.
- Uniforms should be hung on hangers correctly. The way that you leave the uniform after a performance is the way that you will find it the next time that you open your bag.
- Hats must be stored inside the plastic bag and upside down in the box with the flat part to the front of the box. DO NOT use the handles on the hat box. They will rip off very quickly if you do.
- Gauntlets are to be stored in the back pocket of the uniform bag.
- Uniform bags will be stored on the carts in the band room. Make sure that you know your number. You will take them home when we have a home performance.
